TEMPERANCE COLUMN

EDITED BY THE JONESBORO W. C. T. U.

The W. C. T. U. meets every Thursday in the basement of the First Presbyterian Church at 2:30 o.eloek P.M. The first Thursday is a meeting for reports of local superintendents of work done in the month. The second of work done in the month. The second Thursday is the monthly Bible reading. The third, we have the responsive reading on the different departments of work. Fourth Thursday, mothers' meeting. The public are cordially invited to attend any of these

Miss Mary Crosby, of Maine contributed the following on the white ribbon to the state convention as an impromptu:

"Wear it in the workshop, Wear it in the street,

Wear it in the parlor When your friends you greet, Wear it when you're going out, When you're coming back-Here and there and everywhere.

Just like Agnes Slack." THE BENEFITS OF PURITY.

There are a few men and women in the United States, that they are few more's the pity, who are devoting their energies for the promotion of purer lives. Many thoughtless persons look upon them as impracticable cranks; but if we are not to suffer a serious deterioration of national strength, more attention must be paid to the matters which they have the courage to discuss and to the reforms which they advocate. There is something appalling in the contemplation of the number of children that come into the world, diseased in mind; and body, doomed to lives of distress and vice from whom as they grow older a noxious exhalation emanates that is poison to every community with which they come in contact. Francisco, California, via Chattanooga What can be expected of a community where What can be expected of a community where criminals are born, brought into wretched lives without any fault of their own.

When such things happen all over the land, who will say that there is no work for purity associations to accomplishish and who will points. This also affords excellent accommodations for passengers en route charge that those who engage in it, because to Texas. Parties contemplating a trip their number is not large are only impracti-cable cranks? The purpose of such people is far reaching in its scope. It involves the their number is not large are only impractiis far reaching in its scope. It involves the conceptions of the old Spartans, but with higher ideals, who gave so much attention to peopling their country with strong men and women. Their objects embraced only the physical, while those of our reformers embraces both the physical and the spiritual There can be no doubt that with proper attention to such matters the men and women of the future may be made stronger, mentally and morally as well as physically. They proceed upon the theory that blemishes of birth are voidable, and that purity is the avenue that leads to a more perfect human life than exists under present conditions.

There are no weak points in nature laws they are both inflexible and infallible. When they are violated there is no partioning power that can come in between the transgresso and the penalty. Every infringement involves certain retribution. Like begets like, and that which a man sows he shall also reap. This iaw is perfectly understood, universally conceded and practiced by mankind, except lap. She wears bloomers,-New York World. in matters pertaining to the human race. In his relation to domestic animals, man acknowledges its force, respects and acts upon it; in relation to himself he ignores and disregards it. The result is visible everywhere; the future will reveal in this fair land a nation of weakings with a more than fair share of hopeless criminals. It is a matter worthy of the gravest consideration of scientists and I can't git dem niggers to vote fer you des

It is not necessary to go into details here in the suggestion of remedies. Herole treatment would be more than justifled; but the first thing to be accomplished is to arouse the people, especially the leaders of thought, to the existence of the evil. When that is done it will be easier to consider effective remedies. It must be recognized as a fact that the race is being steadily debased before remedies can be successfully applied. But there is no controversy and can be none, about impurity being the mother of physical degradation and odious vice. When men and women learn to live chaste lives, and do so live, then will we have a model nation, remarkable for the strength and morality of its people, Knoxville Journal,

Robbed the Grave.

A startling incident of which John Oliver, A startling incident of which John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eves sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great' joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life. now a well man. I know they saved my life. and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at F. E. Britton's drug store

A Costly Strike.

The action of the British Amalgamated Society of Engineers in overwhelmingly reflecting the proposal of the employers for a settlement of the great engineers' strike is of vast import to the industrial situation over there. The strike lockout has already gone on for twenty three weeks, and as the fight will thus be prolonged indefinitely, the

situation is a very grave one for the English engineering trades to confront. Already the trade disputes this year are said to have cost Great Britain \$75,000,000, while the spirit engendered by the present deadlock is not at all conducive to complacency. Boston

The Newspaper and the Church.

This is an age of progress and the church can not afford to stagnate. The elergyman of today takes advantage of modern improvements. He pays pastoral calls on a bieyele; he lights his church by electricity and he is experimenting with the plan of giving his sermons a wider circulation by transmitting them to his parishioners by telephone. The newspaper is by far the nost effective aid he can employ. It is the ultimate manifestation of modern progress and energy. The church can not do without it.-New York Journal.

LAWLESS INDIANS.

Some of Them Becoming Unruly the Northwest.

CHICAGO, December 21 .- A special to the Times Herald, from Wichita, Kan., says: Information has been received at the office of the United States Marshal at South Me-Alester, Indian Territory, to the effect that which requires a constitutional remedy. It can not be cured by local applications. Hood's Sarsaparilla is wonderfully successful is curing catarrh because it eradicates from the blood the scrofulous taints which cause it. Sufferers with catarrh find a cure it.

The burning of the United States court house at Ardmore the other day, with all its records, is believed to be the first attempt to arry out the plot. The Indians are said to e growing more restive as the 1st A January approaches, as upon that day all of their tribal courts are abolished and the Federa Courts have full jurisdiction in litigation affecting the Indians.

Under the Indian law, one Indian can not sue another for debt of any nature. There are vast numbers of notes held by shrewder Indians against their less provident brethren, now uncollectable, which can be sued on and collected as soon as the Indians come in under the Federal law. It will ruin many thousands of Indians, who have heretofore ocen considered wealthy, and it is the discontent of this debtor class that is thought to be responsible for the plot to burn the ourt records and impede, as far as possible he administration of Justice in the United States Courts. Detectives are watching the movements of the suspected Indians.

FIFTEEN YEARS

"Fredonia, N. Y., June 20, 1894. Dr. M. M. FENNER, Dear Str: I most cheerfully recommend your Kidney and Backache Cure for what it has done for me. I have been a sufferer for fifteen years with lame back and kidney trouble. Sometimes my back has been so bad I could hardly straighten up for a month at a time. I would be taken with a stitch in the back that would last from three days to a month. The doctors could give me no relief. One physician said I had strained my back and there was no cure for it.

Two years ago I got six bottles of your Kidney and Backache Cure and one bottle of your Blood and Liver Remedy and Nerve Tonic. Relief began at once, and continued uninteruptedly to a perfect cure."

One of the best-equipped systems of rail-way in the United States is the Cincinnati, damilton & Payton road, popularly known is the C. H. & D. "This line seems to be enas the C. H. & D. "This line seems to be enjoying the lion's share of Army and Navy travel. They have recently put on a throtrain between Washington and Chicago, their principal train leaving Washington at 11:45 A.M. and arriving in Chicago the following day at noon. They use the Baltimore & Ohio system from Washington te Cincipanati, where they connect with their own system to Chicago. Some time ago they reduced their firme of running trains between Chicago and Aincinnati to eight hours, which is one of the fastest trips made in this country. Their night express between Chicago and Cincinnati is equipped with compariment cars that are models of elegance and beauty. This road caters to Army patronicae and always extends every accommodation possible to officers travelling over their line and it is no wonder that they get the Service patroning. They offer to their patrons the best line between Washington and Chicago, via Cincinnati, and especially between the cultes of Cincinnati and Louisville and Chicago, Toledo or betroft. D. G. Edwards, Passenger Traffe Manager, of the road, in Cincinnati, Ohio, will be very glad to give any additional information concerning the C. H. & D. Route" to all who will address him."—Ariny and Navy Register, Washington, D. C. ving the lion's share of Army and Navy
